

## **Awakening Our Potential**

In the journey of life, we often find ourselves seeking ways to grow and improve. Though born with limitless potential, many of us lose sight of this truth as we navigate life's challenges and become entangled in its demands. Rediscovering and awakening our innate human potential thus becomes a crucial aspect of our personal evolution.

Join us at the MCM Fall Weekend Retreat to explore the *Awakening Our Potential*.

## **Shaping Our Retreat Experience**

We invite you to take an active role in crafting our retreat experience. Lead a workshop that resonates with your personal journey and interests, contributing to a program that reflects our community's collective wisdom.
